

Box contents

- the stroller frame
- 1 front wheel
- 2 rear wheels
- 1 rear axle
- 1 organiser bag

1. Unfolding

- Undo the clasp on the side.
- Lift the stroller by the push bar to unfold the stroller.

2. Rear wheels

- Push the rear axle onto the frame.
- Press in the metal clip on the rear wheel and slide onto the axle.
- To remove the rear wheel, press in the metal clip on the wheel and pull the wheel off of the axle.
- Remove the axle by pushing in the metal pins on the frame near the axle. This is easiest using a retractable ballpoint pen.

3. Front wheel

- Push the front wheel connection onto the front fork.
- To remove the front wheel, press in the metal pins on both sides of the front fork. This is easiest with a retractable ballpoint pen.

4. Fastening cover

- Make sure the fabric cover is always correctly attached to the frame.
- The fabric should be folded over the frame and secured with the velcro.

5. Folding

- Make sure the front of the cabin is unzipped and the front wheel is unlocked.
- Press the red button on the push bar and turn the handle away from you, now fold the stroller down.
- Fasten the clasp on the side to prevent unfolding during transport.

Tip 1

To attach the organiser bag, fold the velcro strap around the push bar, push the velcro through the loop and fold the velcro back on itself.

Tip 2

The front wheel can rotate 360°. To prevent the wheel from turning, lock it by pushing the switch above the wheel to the right.

Caution

- This carrier is for pets only.
- Max. capacity 25kg.
- Use the fastening lines at all times.
- Fully unzip the cabin before folding.
- Do not use when nuts or screws are loosening.
- Clean fabric with mild household soap and water.
- If wheel squeaks or rotates with difficulty, apply grease (like vaseline).
- Read warranty terms on innopet.nl
