

## Box contents

- the stroller frame
- 1 front wheel
- 2 rear wheels
- 1 rain cover
- 1 organiser bag

## 1. Unfolding

- Undo the clasp on the side.
- Lift the stroller by the push bar to unfold the stroller.

## 2. Rear wheels

- Push the button on the wheel. Place the wheel on the rear axle while holding the button.
- Release the button and pull the wheel slightly towards you. You will hear a soft click. Repeat on both sides.
- To release the wheel, press the button on the rear wheel and pull the wheel off of the axle.

## 3. Front wheel

- Push the front fork into the frame with the pin, give it a small tug to confirm that the fork is fixed.
- To remove the front wheel, push the button above the front wheel.

## 4. Push bar

- Push the buttons on the outside of the push bars at the same time to adjust the height of the push bar.

## 5. Folding

- Fold the pushbar down completely.
- Make sure the front of the cabin is unzipped and the front wheel is unlocked.
- Pull the release on both sides at the same time, the stroller will now fold automatically.

## Tip 1

To apply the brake on the stroller, step with one foot on the centre of the brake bar.

## Tip 2

The front wheel can rotate 360°. To prevent the wheel from turning, lock it by turning the dial above the front wheel to the left.

## Tip 3

Make sure the cover is always correctly attached to the stroller frame. The fabric should be folded over the frame and secured with the Velcro straps.

## Caution

- This carrier is for pets only.
- Max. capacity 25kg.
- Use the fastening lines at all times.
- Fully unzip the cabin before folding.
- Do not use when nuts or screws are loosening.
- Clean fabric with mild household soap and water.
- If wheel squeaks or rotates with difficulty, apply grease (like vaseline).
- Read warranty terms on [innopet.nl](http://innopet.nl)
