

Box contents

- the stroller frame
- 1 front wheel set
- 2 rear wheels
- 1 rear axle
- 1 bag with metal rings, pins and hubcaps
- 1 cup holder

3. Front wheel

- Put the front wheel on the frame, you will hear a click when it is secured.
- To remove the front wheel, you will need pliers. Using the pliers, push in the latch and pull the wheel off the frame.

1. Unfolding

- Undo the clasp on the side of the stroller.
- Lift the stroller by the push bar to unfold.

4. Folding

- Make sure the cabin is unzipped and the front wheel is not locked.
- Pull the release on both sides at the same time. The stroller will now fold automatically.
- Fasten the clasp on the side to prevent unfolding during transport.

2. Rear wheels

- Put the wheel on the rear axle.
- Then push one of the rings onto the axle and secure it with one of the metal pins.
- Cover all this with one of the plastic hubcaps.
- Repeat on the other side.
- Push the rear axle with the rear wheels onto the frame of the stroller.

5. Uninstall rear wheels

- With a retractable ballpoint pen, push in the pins on the frame near the rear axle to remove the axle.
- With a flat screwdriver, lift the hubcap off the wheel.
- Now pull out the metal pin to remove the wheel from the axle.

Tip 1

If rings, pins and hubcaps remain, these are spare parts. Store these carefully.

Tip 2

The front wheel can rotate 360 degrees. To prevent the wheel from turning, fix it by pushing the clip on the front wheel upwards.

Tip 3

Take the cup holder and push it over the bars of the frame until the screws fall into the holes of the cup holder.

Caution

- This carrier is for pets only.
- Max. capacity 11kg
- Use the fastening lines at all times.
- Fully unzip the cabin before folding.
- Do not use when nuts or screws are loosening.
- Clean fabric with mild household soap and water
- If wheel squeaks or rotates with difficulty, apply grease (like vaseline).
- Read warranty terms on innopet.nl
