

Box contents

- the stroller frame
- 2 front wheels
- 2 rear wheels
- 1 rear axle
- 1 rain cover

1. Unfolding

- Before unfolding, push the rear axle on the frame of the stroller.
- Undo the clasp on the side of the stroller.
- Lift the stroller by the push bar to unfold.

2. Rear wheels

- Push the rear wheel onto the rear axle while pressing the button on the wheel.
- Press in the same button to remove the wheels from the axle.
- To remove the axle, use a retractable ballpoint pen and push in the pins on the frame.

3. Front wheel

- Put the front wheel on the frame, you will hear a click when it is secured. Repeat on the other side.
- To remove the front wheels, you will need pliers. Push in the latch and pull the wheel off the frame. Repeat on the other side.

4. Fastening cover

- Make sure the fabric cover is always correctly attached to the frame.
- At the back of the stroller, pull the fabric over the bar of the frame, attach the velcro and zip up the cover.

5. Folding

- Make sure the cabin is unzipped.
- Slide the top of the handlebar to the left and push in the button on the handlebar. Push the bar down to fold the stroller.
- Fasten the clasp on the side of the stroller to prevent unfolding during transport.

Tip 1

To apply the brake on the stroller, step with one foot on the step panel of the brake bar.

Tip 2

The front wheels can rotate 360 degrees. To prevent the wheels from turning, fix it by pushing the clip on the front wheel upwards.

Tip 3

When unfolding, be sure to release the clasp on the side. Otherwise you will not be able to unfold the stroller.

Caution

- This carrier is for pets only.
- Max. capacity 50kg
- Use the fastening lines at all times.
- Fully unzip the cabin before folding.
- Do not use when nuts or screws are loosening.
- Clean fabric with mild household soap and water
- If wheel squeaks or rotates with difficulty, apply grease (like vaseline).
- Read warranty terms on innopet.nl
