

## Box contents

- the stroller frame
- 1 front wheel set
- 2 rear wheels
- 1 rear axle
- 1 bag with plastic rings, pins and hubcaps
- 1 cup holder

## 1. Unfolding

- Undo the clasp on the side of the stroller.
- Lift the stroller by the push bar to unfold.

## 2. Rear wheels

- Put the wheel on the rear axle.
- Then push one of the rings onto the axle and secure it with one of the metal pins.
- Cover all this with one of the plastic hubcaps.
- Repeat on the other side.
- Push the rear axle with the rear wheels onto the frame of the stroller.

## 3. Front wheel

- Put the front wheel on the frame, you will hear a click when it is secured.
- To remove the front wheel, you will need pliers. Using the pliers, push in the latch and pull the wheel off the frame.

## 4. Folding

- Make sure the cabin is unzipped and the front wheel is not locked.
- Slide the top of the folding mechanism to the left and push in the button on the handlebar.
- Turn the handlebar away from you.
- Fasten the clasp on the side to prevent unfolding during transport.

## 5. Uninstall rear wheels

- With a retractable ballpoint pen, push in the pins on the frame near the rear axle to remove the axle.
- Push the hubcap up with your fingers or a flat screwdriver.
- Now pull out the metal pin to remove the wheel from the axle.

### Tip 1

If rings, pins and hubcaps remain, these are spare parts. Store these carefully.

### Tip 2

The front wheel can rotate 360 degrees. To prevent the wheel from turning, fixate it by pushing the clip on the front wheel upwards.

### Tip 3

Take the cup holder and push it over the bars of the frame until the screws fall into the holes of the cup holder.
