

Box contents

- the stroller frame
- 1 front wheel set
- 2 rear wheels
- 1 rear axle
- 1 cup holder
- 1 rain cover

1. Unfolding

- Undo the clasp on the side.
- Lift the stroller by the push bar, to unfold the stroller.

2. Rear wheels

- Push the rear axle onto the frame.
- Push the rear wheels onto the frame while pushing in the button.
- To remove the wheel, press the button and pull the wheel.
- To remove the rear axle use a retractable ballpoint pen to push in the pins on the frame near the rear axle. Now pull the axle off of the frame.

3. Front wheel

- Put the front wheel on the frame, make sure the arrow points towards the frame. (see tip 1)
- To remove the front wheel, use pliers to push in the latch. Now pull the wheel off of the frame.

4. Cup holder

- Take the cup holder and push it over the bars of the frame until the screws fall into the holes of the cup holder.

5. Folding

- Make sure the cabin is open and the front wheel is not locked.
- Slide the top of the folding mechanism to the left and push in the button on the handlebar. Push the handlebar down to fold.
- Lock with the clasp on the side of the stroller.

Tip 1

Be sure the front wheel is installed with the arrow pointing towards the frame.

Tip 2

The front wheel can rotate 360 degrees. To prevent the wheel from turning, lock it by pushing the clip on the front wheel upwards.

Tip 3

Slide the removable basket on the rails under the cabin of the stroller. Push until the basket is secured to the frame.

Caution

- This carrier is for pets only.
- Max. capacity 25kg.
- Use the fastening lines at all times.
- Fully unzip the cabin before folding.
- Do not use when nuts or screws are loosening.
- Clean fabric with mild household soap and water.
- If wheel squeaks or rotates with difficulty, apply grease (like vaseline).
- Read warranty terms on innopet.nl
